

# MHB with Fixed Corner Sections

Corner sections can be used to follow the contours of the structure precisely and allow access within 30 to 60 cm. of the working surface. You can choose from a variety of fixed and adjustable corner sections.

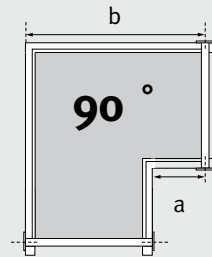

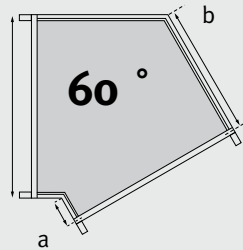

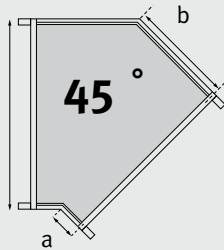

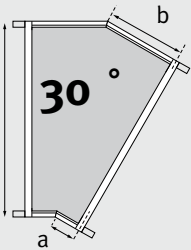

Please be sure to consult with your Altrex supplier for factory approval for each configuration. Please consult your Altrex dealer with your specific application requirements.

## Fixed Corner Sections

- Light weight aluminium construction
- Mounts to the U-frame with Quickpins
- Supplied with Guardrails
- Economical solution
- Available in 4 separate angles: 30°, 45°, 60° and 90°

## Load capacity and configuration tables

Regardless of the used type or angle of corner section, the load capacity of any L-shaped platform configuration with three hoists is limited to 250kg in total. (two men with light equipment)
